

ABDULAZEEZ AHMAD

E-Mail: azeezahmad518@gmail.com | **Phone:** 07061562666 | **Address:** Maikalwa Qtrs Naibawa Kano
State of Origin: Gwale LGA, Kano State.

PROFESSIONAL SUMMARY

Data Scientist with 3+ years of hands-on experience in Python-based analytics, machine learning, LLM evaluation, and end-to-end data solutions. Proven ability to develop datasets, engineer evaluation prompts, train models, and deliver actionable insights using Python, SQL, Power BI, and Tableau. Skilled in technical documentation, collaborative problem-solving, and mentoring emerging data professionals.

CORE SKILLS

Programming & AI:

- Python (Pandas, NumPy, Scikit-learn, PyTorch, Matplotlib, Seaborn)
- Machine Learning
- LLM Evaluation & Prompt Engineering
- Dataset creation for SFT and RLHF
- Jupyter Notebooks, APIs

Data Analysis & BI:

- Power BI (DAX, Data Modeling, Power Query)
- Tableau (Storytelling, Dashboards)
- SQL (Joins, Aggregations, Filtering)
- Excel (PivotTables, Power Query, Lookup Functions)

PROFESIONAL EXPERIENCE

Advanced Data Analysis Facilitator | Blue Saphire Hub Kano

Oct 2025 – Present

- Delivered workshops on data analytics tools and workflows to 30+ participants.
- Coached learners in deploying data apps and building analytical portfolios.

Data Science Facilitator | Kano State Institute of Information Technology Kura, Kano

Sep 2024 – Present (Contract)

- Train learners on real-world data analytics workflows: data sourcing, transformation, modeling, and reporting.
- Guide students in developing data-driven portfolio projects
- Provide mentorship and assessment, ensuring learners understand core analytical concepts and practical application.

Monitoring & Evaluation Officer| Support for Women and Teenage Children (SWATCH), Kano 2025

- Designed data tools and analyzed program data.
- Built dashboards for internal and donor reporting.

Data Scientist / Data Analyst | Bynatek Digital Limited Kano

Dec 2024 – Present

- Delivered real-world data science and analytics solutions to support business and operational decision-making.
- Built and evaluated machine learning models for classification and prediction tasks.
- Trained and mentored students and early-career professionals in data analysis and data science through in-person and remote sessions, using applied, real-world datasets.
- Developed dashboards, analytical reports, and data-driven web applications using Power BI, and Python-based frameworks to support internal reviews and project discussions.

Teacher | UA Academy Kano

Jan 2020 – Oct 2023

- Taught Physics and Computer Science to secondary and high school students, developing lesson plans that combined theory with practical problem-solving.
- Designed and delivered hands-on programming exercises, including Python-based projects, to introduce students to computational thinking.

Digital Services Manager | Nobleez IT Hub. Kano

Aug 2020 – Dec 2022

- Delivered analytics services for academic and business projects.
- Trained learners in Python, R, and Microsoft Office tools.

EDUCATION

National Open University of Nigeria

Post Graduate Diploma In Information Technology (Expected 2026)

University of Maiduguri

Post Graduate Diploma in Education (2019)

Kano University of Science and Technology Wudil, Kano State.

BSc. Physics (2017)

CERTIFICATIONS

- Data Science & Machine Learning – KSIIT
- Deep Learning with PyTorch – Arewa Data Science
- DataCamp – Certified Associate Data Analyst, Certified Associate Data Scientist
- Cisco Networking Academy – Cybersecurity | Python Essentials
- Diploma in Information Technology – HiiT Institute
